Action on Climate in Teignbridge

actionclimateteignbridge.org

About ACT

ACT was set up in 2019 by a group of people convinced of the need to take urgent climate action.

It now has more than 350 members.

It works to raise awareness of climate issues, and to support and inform local people and organisations aiming to reduce their carbon emissions and help wildlife survive and thrive.

COP26

Join ACT

ACT welcomes new members. Join to get updates on progress, join in the work, show your support and help raise awareness.

Or talk to one of our stewards about joining.

How does ACT work?

ACT is a 'not for profit' company run by volunteers to benefit the community. It works with local councillors but has no political affiliations.

It is steered by a coordinating group with a number of working groups:

- ◆ Ecology
- ◆ Economy and Business
- ◆ Energy & Built Environment
- ◆ Food, Farming, Fisheries & Forestry
- ◆ Public Engagement
- ◆ Transport
- ◆ Wildlife Wardens

What does ACT do?

- ◆ **Works with** local councils and communities and in collaboration with other like-minded groups nationally
- ◆ **Supports councils** that have declared a climate emergency to work out their emissions, form an action plan and measure change
- ◆ **Runs forums** to seek and share ideas on what we can all do to cut our carbon footprint
- ◆ **Writes articles** for the local papers and magazines to spread awareness and information
- ◆ **Responds to consultations** on issues related to climate and ecology
- ◆ **Runs the Wildlife Wardens Scheme**, which trains volunteers in each parish to survey local wildlife and help improve habitats
- ◆ **Runs a website** with lots of helpful information and resources
actionclimateteignbridge.org
- ◆ **Encourages** ACT members to write to their local councillors and MPs to ask them to take action to meet climate and ecological targets
